

Community Camera Program

Do you
currently
utilize private
video
surveillance at
your home or
business?

Video surveillance is one of the best methods for apprehending criminals and convicting suspects by catching them while they are in the act of committing a crime. Installing video surveillance is an excellent example of community-police partnerships; something we highly value as a police agency serving our community.

How Does it Work?

Many business owners and residents currently operate surveillance systems at their businesses or homes. As crimes occur nearby, they are not always aware that their system may have captured footage that could help solve the crime, thus keeping our community safer. In turn, the police are also not always aware who may have this potentially vital information. The Oldham County Police Department is asking

residents and businesses across the county to register their privately owned surveillance camera systems. As we respond to criminal incidents, we may be able to use the information or footage gathered from the security cameras to assist in the apprehension and prosecution of the criminals involved.

What are the Benefits of Registering your Camera?

By registering your camera with us, the department can quickly identify nearby cameras that may have captured criminal activity. After registering your camera, you would only be contacted by the Oldham County Police Department if there is a criminal incident in the vicinity of your security camera. Police officers, if necessary, may request to view your camera footage to assist in the investigation. The map of registered cameras is only accessible by authorized personnel of the Oldham County Police Department and not accessible to the public.

Please note: Registering your camera does not give us access to the footage. You are not giving automatic consent by registering on the site. The Oldham County Police Department will still need your permission to view or copy the footage.

Registration

If you would like to tell us that you have video surveillance and allow officers to contact you should a crime occur in your area, we ask that you let us know by filling out our registration form or electronically at www.oldhamcountypolice.com.

You can also contact the Oldham County Police Department at (502) 222-1300 if you have any questions or require additional information.

Information provided to the Oldham County Police Department regarding your camera systems will be for official use only. Your personal information will remain confidential and not be distributed except as required by law or court order.
